Fine Quality—Black—Mixed—Green

"Fresh from the Gardens"

Object-Lesson Of Peace

Whatever may be the individual reaction to customs houses as a barrier between Canada and the United States, there is general unanimity about the value of the lesson presented by the unique fact that not a gun nor a fort stands in provocation between the two countries throughout the whole extent of the international boundary.

This is so phenomenal a situation that it has attracted universal attention, been the subject of thousands of after-dinner and more common-sense addresses, and stands today as a belittling word as a supreme example of what understanding and goodwill can do to preserve the peace of an immense borderland, to cement friendship between two great branches of the Anglo-Saxon family.

For more than 100 years, peace has existed between the Canadian and American peoples, and it is almost inconceivable that any set of facts or factors could disturb the serenity of the relationship existing between the nations north and south of the boundary line.

That goodwill and understanding has been almost inestimable benefit to Canada. Billions of dollars of American money has been invested in this country, hundreds of thousands of American people have come to settle in our midst. That money has helped materially in the development of Canada; those people have contributed their share to the upbuilding of a great dominion of the British Crown. Together they have helped to achieve that economic diversity upon which Canada has been able to build its economic fabric on a national scale. These facts are evidence of the confidence with which the people of the sister country view their neighbors to the north and testify to the keen realization of the solidarity of British Institutions and British forms of government.

The unique and signal character of this unfortified frontier, the amity between the two nations, and the close economic and social contact stand superior to trade rivalries, have attracted attention of the Carnegie Endowment for International Peace, which proposes now to make a special study of the factors lying behind a situation which stands as an impelling object-lesson to peoples of all climes.

Whether or not any definite conclusions can be reached, whether or not a tangible cause can be deduced from the obvious facts, which might be made applicable as a general principle, remains to be seen. The facts stand in their amazing isolation—peace, goodwill, and understanding are better weapons of defense than all the guns ever forged and all the forts ever built.

Superficially, at least, it would appear the fundamental background to the phenomenon is of the spirit, and for that reason, too intangible to lend itself to any concrete definition or to be written into any formula for use of peoples who, similarly situated geographically, cannot get along together. Whatever the finding, the lesson stands for the world view—an untrefutable proof of what two nations may do if they have the will to live in peace and amity, convincing evidence that, demonstrating their mutual goodwill by dispensing with the so-called weapons of the defence, neighbors may live in harmony without inciting those conditions of the mind or of the body politics, which lead to war.

Probe Working Of The Brain

Use High Radio Currents To Stop Functioning Of Limited Areas

A University of California psychologist used high radio currents to stop the functioning of limited areas of the brain without interfering with the other parts to study the purposes of particular centres of the brain, was described to the American Association for the Advancement of Science.

This somewhat startling method of probing the functional workings of the brain was based on the research of Dr. Clarence W. Brown of the university's psychology department. Dr. Brown suggested that the brain study should prove serviceable in solving anatomical and psychological problems in which a small controlled elimination of function is desired.

Fixed Price For Tobacco Growers

Imperial Tobacco Company Of Canada Limited Signs Tobacco Growers' Agreement

Gray Miller, president of the Imperial Tobacco Company of Canada, Ltd., states that "The Ontario tobacco growers' agreement is practically assured for 1934 a price based on 25c per lb. for an average crop. Although we are still without any assurance that other manufacturers will follow our lead, we have now agreed to meet the request of the growers for a 25c average price. We have given them our definite undertaking in writing to adhere to that basis for the 1934 crop, provided they can secure an agreement from the other manufacturers to pay the same price."

Looseness Of The Bowels During the Summer Months

It is seldom, during the summer, that most people are not afflicted with some form of looseness of the bowels. Generally it develops into Diarrhoea, Dysentery or Summer Complaint, and has a tendency to weaken the system. Do not check the discharge too suddenly. Do not eat a new and rich diet, and do not use laxatives. Do not take Dr. Fowler's Extract of Wild Strawberry, a remedy which is safe and effective for thousands of families during the past 88 years. Do not accept a substitute. Be sure and get "Dr. Fowler's" when you ask for it. Put up only by The T. Millburn Co., Ltd., Toronto, Ont.

Modern War Implements

Britain Installing Rapid Fire Guns in Fighting Planes

A big gun era begins in aerial warfare. A 37-millimeter, rapid fire, automatic gun is being installed in some of the larger fighting planes of Great Britain and promises to have a "tremendous advantage" over an opponent carrying only the ordinary machine guns.

The heavy gun shoots more slowly, sending out its messengers of death at the rate of only five in four minutes. But each shell weighs a pound and a half and is considered certain to disable any plane however slightly by the contact is effected. And the slow-shooting heavy gun trusts to its long range to give it victory over the hornets. The small, light plane with its spitting machine gun is never to be permitted to come within effective range.

The report says: "Excellent results at both ground and air targets have been obtained at 2,000 yards." Presumably that gives British air fighters a fine start over all competitors in the armament race. But the principle, however, is the announcement that the new device was developed by experts connected with one of the great armament manufacturers whose trade always has been international.

And even if the British government assumes complete control of that particular make, it can be certain that shortly after the usefulness of the invention has been demonstrated, armament makers of other nations will be out with guns for airplanes that can shoot shells just as big, just as far and perhaps just a little faster, than the British.

Praise Missionary Efforts

Doctor Credits Christianity With Great Progress In Asia

The change which Christianity has wrought in the conditions of millions of women, and the part which Christian women took in working these reforms, was the theme of an address by Dr. Mott, president of the World Missionary Council, at a meeting of workers of all Christian denominations.

The effect of Christian missions upon the lives of women could be sufficient evidence, he said, to convince him of the worth of foreign missions. An additional argument in the devotion and achievement of Christian women in the missions.

To thousands of women in heathen lands the relief brought by the medical missions, the establishment of hospitals, and the creation of nursing services had been immense. Women took the lead and did the greater part of the work in this field of service. In the devotion and achievement of Christian women in the missions.

Fortune Has String Attached

Man Must Marry By Christmas

In 1938 To Marry By Christmas. If John Francis Gallagher, of parts unknown, takes until after his wife on or before Dec. 25, 1938, and settles down with her, he will receive \$100,000 from his aunt, Mrs. R. Zarah, 143 West Hall Road, Elkhart, Ind.

The offer of wealth was disclosed in a letter from Mrs. Zarah to Acting Mayor J. A. McKerscher of Winnipeg. She said she was obliged to make a public appeal as to her nephew's whereabouts because she had lost all trace of him several years ago.

Mrs. Zarah, in her letter, said the last address she had of her nephew was box 130, Carbon, Alta., and general delivery, Prince Albert, Sask. Gallagher is not located and married by the date set, Mrs. Zarah said he would bequest all his real and personal property to the church and charity.

Cost Of Farm Production

Dominion Agricultural Bulletin on prairie farm costs, says: A half-section grain farm in the prairie province, when operated by a man and a seven horses would be able to produce wheat at 75c per bushel, while, when operated with a 10 h.p. tractor and two horses, the cost would be increased to 85 cents per bushel.

Proved Fine Wrong

Remarkably vigorous tomato plants have been grown out of a jar of Fairbanks Alaska under continuous daylight for six weeks, despite the fact that daily artificial, or artificial, and daylight exposure of 16 hours or more are injurious to tomatoes.

Obligate plants are plants which can grow in but one life condition.

Synthetic Rubber

Automobile Tires Now Made In U.S. From New Substance

The first American synthetic rubber automobile tires which look like real rubber and wear fully as well, were announced recently. They were described as a potential checkmate against excessive rubber prices and a guarantee of American rubber independence in war-time. The synthetic rubber now costs about \$1 a pound, against 15 cents for foreign rubber, while in four minutes from five cents to more than a dollar.

The announcement was made jointly by the Dupont Company, makers of the synthetic rubber, and the Dayton Rubber Manufacturing Company, of Dayton, Ohio, making the tires.

The synthetic rubber is made of acetone, salt and water. The acetone comes from coal and limestone, so that all the ingredients are home products.

J. A. MacMillan, president of the Dayton company, issued this statement:

"These tires have been subjected to rigid laboratory and road tests and have proved themselves fully the equal of tires built of natural rubber. They have been placed on automobiles opposite tires built of natural rubber and have been subjected to severe usage."

Use Of Radiation

Dr. Shepley Deals With Advance Made In Use Of This Medium

In Recent Years "It is definitely recognized to-day that the scope of radiotherapy, which has so widened that it now embraces a very large percentage of the total cancer field," Dr. Earle E. Shepley, radiologist for the St. Lawrence hospital, told delegates to the Canadian Cancer Association at Calgary. His paper dealt with the advances made in the use of radiation as a therapeutic agent since its discovery in 1903.

"Because of late recognition," Dr. Shepley said, "a large percentage of cases of cancer cannot be considered from the viewpoint of curative attack. In those that have been given curative treatment procedures, possibly not more than one-third are cured. From these groups, a larger number require palliative radiotherapy." This is a matter of importance because such procedure reduces suffering even if not effecting a cure, Dr. Shepley explained.

Will Regulate Tariffs

Dr. Shotwell Explains Powers Given To Roosevelt

Economic problems, including tariff questions, would be more smoothly adjusted between Canada and the United States as a result of the powers to regulate tariffs given to President Franklin D. Roosevelt, Dr. Shotwell, former Canadian representative of the United States at the peace conference in 1918 and at present professor of international law at the University of New York City, told the Ottawa Canadian Club. Formerly these powers were the prerogative of the United States congress.

Tariffs, under executive decree, would operate without the intrusion of political prejudices formerly seen, Dr. Shotwell said. His audience included Prime Minister R. B. Bennett, Sir Robert Borden, wartime premier and Rt. Hon. Mackenzie King, former prime minister and Liberal leader in the House of Commons.

Gold In Canada

Gold is found in every province of Canada except Prince Edward Island. And its point of value it ranks with coal as the two most important mineral products of the Dominion, according to the Department of Mines, Ottawa.

"Minors" submarines weighing only 12 tons and measuring 29 feet in length have been successful underwater tests in Japan.

In English law, a bailiwick is the district within which a sheriff may exercise jurisdiction.

Improves cooking

Canapar is a new cooking oil. It is made from a special blend of oils and is designed to improve cooking. It is available in all grocery stores.

Regular White Elephant

Automatic Gave Minister From India Lots Of Trouble

Rev. Elbert M. Moffatt, central treasurer of the Methodist Episcopal Church in India, was a badly troubled man when he arrived from Europe on the liner American Trader, with a 45 calibre automatic revolver. The automatic became a source of trouble to Mr. Moffatt before he left Bombay. The weapon was taken there by a bishop's sister, whose American friends felt she would need something to protect herself when she was so far from genteel Oklahoma.

It is, however, illegal to have a pistol that is not registered by the police in India. And the police refused to register the pistol because its bore was the same as that of theirs.

The bishop's sister appealed to Mr. Moffatt to take the pistol back to the United States when he sailed. He had it in his possession for two weeks before he left India with his wife and their children. And the police kept a constant watch on him, which was most embarrassing.

When he arrived in the United States he listed the pistol on his customs declaration. The customs agents said they were not interested. He felt relieved that he was not violating any law, but the helpful customs agents said: "While the pistol does not violate any law, it violates the New York State law, of course."

Mr. Moffatt threw up his hands. "I am," he said with determination, "taking it to the nearest police station."

A Miracle Of Speed

Nineteen Girls In London Factory Make Shift In Minute

Those who refuse to believe that a shift with all its stitching, trimming, button-holing, and so forth, can be made in one minute, should go to a building in London, and see nineteen girls, seated at ninety tables, separated into two blocks, by a moving conveyor, performing a miracle of speed. Each girl performs one operation. One sews cuffs, another makes collars, another button-holes. All the time shirts in various stages of completion are moving with the conveyor from one table to another. At full pressure the minute can be reduced, it is said, to fifty-five seconds!

Gift For British Admiralty

Charles Courtney, master locksmith, arrived in London from the United States and said he would present the Admiralty certain rings and articles of wearing apparel belonging to the late Lord Kitchener. Courtney said he saved the articles from H.M.S. Hampshire, the ship which carried Lord Kitchener to his death while on an official mission during the war.

Husband Nodded Sympathy

In granting a divorce to a talkative woman at Toledo, Ohio, Judge James Austin explained that it was given in favor to her husband, Mrs. Northrup V. Mueller could not be stopped by judges, attorneys or bailiffs after she began a recital of the domestic affairs. The husband did not contest the action.

Population Of India

Showed Increase Of Thirty-Four Million In Ten Years

Dr. J. H. Hutton, C.I.E., I.C.S., chief commissioner for the census of 1931, in his census report wrote that for long China was considered to hold the greatest aggregate of human beings in the world or more or less under the same administration, but India's population now even exceeds the latest estimate of the population of China. The difference between the kind of government China has had during the present century and the kind of government that India has had could not be better illustrated.

The census of 1931 gave India a population of 353 millions or an increase since 1921 of just under 34 millions. The increase in the ten years from 1921 to 1931 is alone almost equal to the total population of France or Italy and much greater than that of important European powers like Poland and Spain. If there was an increase of 34 millions between 1921 and 1931, a similar or even greater increase between 1931 and 1941, bringing India's population almost up to the 400 million mark which is envisaged by Sir John Mogg, cannot be dismissed as impossible—Calcutta Statesman.

Kept Old Appointment

Friends Met In Denver On Schedule After Twenty Years

Three men entered the office of a Denver newspaper promptly at 11 o'clock on a recent morning to keep a rendezvous made 20 years ago. The trio consisted of Earl E. Anderson of El Centro, California, H. B. Bromley of Denver and F. A. Donk of Rocky Ford, Colorado.

They explained that one night in 1914, while all were living in Denver, they made an appointment to meet in that particular building a score of years later.

DENICOTEA Cigarette Holder absorbs the nicotine, pyridine, ammonia and resinous and tarry substances found in tobacco smoke. Complete holder with refill — 15¢ postpaid, or from your Druggist or Tobacconist, Daisies wanted everywhere.

TOWN & COUNTY
Personalographs

Mr. and Mrs. Aaron Klassen spent
Wednesday afternoon in Calgary, tak-
ing in the Stampede.

Born to Mr. and Mrs. A.P. McKibbin
on Tuesday, July 10th, a daughter.

Mr. R. E. Peters returned home on
Wednesday last after being confined to
a Calgary hospital for some weeks.
Although somewhat improved in health
Mr. Peters is still unable to be up and
around yet.

Mr. and Mrs. C. A. Dunsmore re-
turned on Wednesday last from a six-
week's trip to United States points.

We are pleased to report that Mr.
Williamson, who recently underwent an
operation in the Drumheller hospital,
is gradually improving.

Jae Flaws, Mrs. Letch and children,
and J.M. Othman, returned to Cal-
gary on Sunday and returned Monday.

The Lady Roberts Chapter 1313 E
held a party at the home of Mrs. H.C.
Wilton on Friday night last in honor
of three of their members, bride-elects
of the summer, the Misses Vera Poxon
and Irene and Daphne Nash. Miss Ella
Hafstad was first prize in a contest.
Miss Mollie Milton, second. Mrs.
Wilton served lunch to the guests,
and following the girls were each pre-
sented with engraved comforts, gifts
of the Chapter.

Miss Irene Nash spent the week end
in Calgary.

Mrs. L. Poxon, Mrs. F. Bossett and
Harry Poxon were in Calgary last Fri-
day.

Miss Grace Cameron has accepted a
position in the C.H. Nash store.

T. J. Johnson traded in his '28 Chev-
Sedan for a 1930 model. George Oil-
point also has another car, a Pontiac
couach.

John Atkinson has purchased a '29
Pontiac sedan from Garrett Motors.

Miss Daphne Nash was a Calgary
visitor on Monday.

The C.G.I.T. presented their leader,
Miss Vera Poxon, with a set of silk
and peppers on Monday night, when
the members went on a hike.

Mr. and Mrs. T.J. Johnson and fam-
ily left on Wednesday to spend a
week at Sylvan Lake.

Mr. and Mrs. Alex Sobyski motored to
Calgary on Wednesday.

Mr. and Mrs. MacGregor and family
spent Sunday at Ketter's Lake.

Mr. Justice Ives revealed the decision
of the jury in the Brownlee vs.
MacMillan trial last Thursday, and it
appears that his action has caused
unfavorable comment throughout the
province, particularly in the urban
localities.

The Red Bus Lines have extended
their run from Drumheller to Alkali
and another 2-passenger car has been
added to the fleet. The bus leaves
Calgary for Alkali daily at 7 a.m. and
arrives at the border town at 3 p.m.

There will be no services in the An-
glican Church, Carbon, on July 15th
and 22nd. Morning service will be held
on Sunday, July 29th.

Grand Forks held a very successful
sports day on Wednesday, July 4th
in spite of the showery weather. A

CARBON TRADING CO.

KEEPING UP QUALITY

The reputation of Canadian wheat on the markets of the world
is due to the efforts western farmers have made to keep up the
quality of their production.

And the reputation of United Grain Growers is similarly
based on unrelenting efforts to keep up the quality of its service
to farmers in handling their grain and furnishing them with farm
supplies.
